

INTRODUCING MEDIA LITERACY

Media literacy asks us to question what we are seeing. Asking questions helps us better understand information. It also helps us get answers to questions we might have about the world around us. Those answers help us better understand everything we see.

Let's start by asking some of questions:

- What are some questions you can ask about the things around you?
- Who can you ask those questions to?
- How can the answers help you understand the world around you?

We encourage you to color in **EXAMINE**, **QUESTION**, **INTERPRET**, and **EXPLAIN**.
